A typescript list of manuscripts in the Wellcome Library [Notes towards *A New Catalogus Catalogorum: an alphabetical register of Sanskrit and allied works and authors*]*

Dr V. Raghavan
Professor and Head of the Department of Sanskrit, University of Madras

27 November 1954

[*Note: In 1954, Prof. Raghavan of Madras University visited the Wellcome Historical Medical Research Library in London, and in a few months prepared a list of titles based on his examination of boxes of Sanskrit and Prakrit manuscripts at the Library. The boxes were labelled with alphabetical letters: A-Z etc. Prof. Raghavan's list was compiled in haste, and provided a very remarkable amount of information, given that he listed almost 3000 titles in three months or so. A typewritten copy of the list was deposited at the library, and for many years it provided the only guide to the content of the collections. It was used by visitors, including Agehanandabhāratī in 1968, and Prof. David Pingree from the 1970s onwards.*

The manuscripts in the list below were disturbed several times between the 1950s and 1977, and the manuscripts on the shelves no longer always correspond to the items in Raghavan's listing.

Furthermore, many of the manuscripts in the Raghavan list below have now been catalogued more fully, and have been given new ``greek letter'' shelf marks, e.g., $\beta 33$, $\alpha 1200$, *etc. The greek letters are size codes:*

- α *up to* 6×11*in,*
- β *up to* 9×13.5*in,*
- γ *up to* 9×16*in,*
- δ *for outsize manuscripts, and*
- ϵ *for palm leaf manuscripts.*

In a small number of random cases the new greek-letter number appears in the printout below.

The listing below, therefore, is chiefly of historical interest. Items in the Wellcome Library cannot be ordered using ``Raghavan numbers'', nor should these numbers ever be used in any publication to refer to Wellcome manuscripts. The ``Boxes'' below no longer correspond to any physical boxes on the shelves: the collection has been re-packed in archival boxes holding a small number of manuscripts each. If you wish to examine an item in the list below, the Curator of the collection must be contacted for further guidance. -- Dominik Wujastyk, October 2001.]
